

COMPANY PROFILE 2026

Building the infrastructure that keeps Indonesia connected.

Provision of general construction, telecommunication infrastructure, oil & gas installation, and mechanical, electrical & plumbing (MEP) services.

A national contractor committed to engineering excellence.

PT Putra Intan Perkasa — better known as PT PIP — was established on August 24, 2011, as a national private company committed to excellence in engineering and infrastructure. PIP has grown into a reputable general contractor serving the construction, telecommunication, and energy sectors.

Through strong project management, skilled professionals, and a commitment to innovation, PIP continues to provide reliable and efficient engineering solutions across Indonesia.

Vision & Mission

We are committed to engineering excellence by delivering innovative, high-performance solutions that ensure optimal productivity, superior quality, and total client satisfaction.

As we move toward the next chapter of growth, PT Putra Intan Perkasa is focused on delivering impactful breakthroughs and becoming a trusted partner in the fields of infrastructure, telecommunication, energy, and engineering services.

2011 Established in Jakarta	500+ Telecom site projects since 2011	6 Regions: Java, Bali, Sumatra, Riau Islands, Kalimantan, Sulawesi	3 ISO certifications: 9001, 14001, 45001
---------------------------------------	---	--	--

Quality & Competitive Pricing

Commitment to quality and competitive pricing on every project.

On-Time Delivery

Timely project completion with consistent results.

Certified Team

Competent, certified, and experienced professionals.

Client Satisfaction

Focus on client satisfaction and continuous improvement.

One partner from ground-breaking to hand-over.

Telecommunication Tower

End-to-end delivery for tower owners – green field towers, roof top towers and poles – from the first site survey to a site that is on air.

01

SITAC

Site acquisition: survey, candidate search, community and landowner approval, and building permits.

02

CME

Civil, mechanical & electrical: foundation, tower erection, fencing, grounding, and power connection.

03

Collocation

Installation of additional tenants on existing towers, including mounting, cable tray, and power works.

04

Strengthening

Structural reinforcement of existing towers and foundations to carry additional antenna loads.

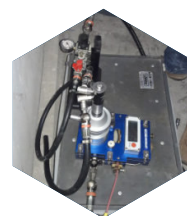

Construction

- Building Construction
- Steel Construction
- Building Maintenance
